

NOTICE TO NAVIGATION KENTUCKY RIVER LOCK 4

DATE: 3/27/09

NOTICE: Due to the recent events of the ice storm, there is a considerable large amount of debris at the bottom of the upper approach to the lock chamber that can not be removed without the use of specialized equipment. Upon receiving quotes for removal of this debris, the Kentucky River Authority does not have the available funding to effectively remove the debris to the extent of assuring safe boat passage. In addition, if the gates are open to lock boaters there is a possibility of the valves becoming wedged open and possibly losing Pool 4. **Lock 4 will not be open this boating season due to the reason stated above.** Please check the Kentucky River Authority's web page at: <http://finance.ky.gov/ourcabinet/attached+agencies/kra.htm> for additional "Notices to Navigation" and updates to the status of the Locks and Dams.
